NUMBERS NOW™

can save your Electric Cooperative serious time and money!

IF YOU USE 1,000 OR MORE REFLECTIVE NUMBER DECALS PER YEAR, NUMBERS NOW™ WILL SAVE YOUR COMPANY HUNDREDS OF DOLLARS PER YEAR.

IF YOU USE 10,000 OR MORE REFLECTIVE NUMBER DECALS PER YEAR, NUMBERS NOW™ WILL SAVE YOUR COMPANY THOUSANDS OF DOLLARS PER YEAR.

Let's say you number 1,000 transformers per year with a 5 digit number. If you use individual numbers or numbers in sheets, you are probably spending at least 5 minutes to number a transformer. If you switch to the **NUMBERS NOW**™ system, it will take an average of 1 minute per transformer. This will save 4,000 man hours per year. If you pay (with benefits) \$25 per hour, that's a savings of \$1,666.00 per year.

If you send out a workers to number transformers in the field, the time savings is much greater. Add to that the safety of the **NUMBERS NOW**™ system (no fumbling with numbers in wind and rain), and you have a powerful reason to switch. To appreciate the safety and convenience of **NUMBERS NOW**, please watch the videos on the enclosed  or watch the videos at www.anytimesign.com/1.htm.

NRECA members receive their 10% discount on NUMBERS NOW™.

Because **NUMBERS NOW**™ is made by Anytime Sign, we offer the **NRECA 10% discount off the prices shown on the enclosed brochure.** If your **safety officer** requires switching to reflective numbers, we use 3M 3200 Scotchlite.™ 3M products are specified by more government agencies than any other brand of reflective materials. **THEY ARE MADE IN THE USA.** 

Every truck should have a **NUMBERS NOW**™ installation box
