MS 01

Our Economy IR Custom Call Sign Patches are actually **MORE DURABLE** than our AOR 1 FABRIC Patches

Our Magic Black SOLAS is normally the best infrared material, but adhesive SOLAS is difficult to cut into lettering. That's why we developed Economy Magic Black material (an Anytime Sign exclusive) to cut and place on Economy blanks. Our Economy Blanks are reverse solvent screen printing (best quality process) on Lexan polycarbonate with USA Velcro brand high heat velcro. This makes our Economy Custom Call Sign Patches the most **affordable** and **durable**. You can easily clean blood, tar, sap, and paint ball marks with Windex or gasoline. We also offer non-covert Economy Custom Call Sign Patches for day use.

Our Economy IR Custom Call Sign Patches are **JUST AS BRIGHT UNDER IR NIGHT VISION AS SOLAS PATCHES**

Video proof is at www.anytimesign.com/economycallsign
